

Double-sided cards

Print & laminate

84 cards · 28 A4 pages · 14 sheets

Front: picture + English / Back: Chinese + pinyin

Card size: 90 × 80 mm / Six cards per side

1. Test pages 1–2 first

Choose A4, Actual size (100%), double-sided printing and **flip on the long edge**. Turn off Fit to page. Hold the test sheet against a light and check that matching card numbers align.

2. Print and cut

Cut along the dotted guides. Back-page columns are reversed to align with the fronts. Printer alignment may vary slightly.

3. Laminate and trim

Leave space between the cut cards inside the pouch. After laminating, leave a **3–5 mm sealed border** around each card and round the corners. Follow your laminator and pouch instructions.

Manual double-sided printing

Paper loading differs by printer. Print page 1, mark the paper direction, then test page 2 on the same sheet. Continue in pairs: 3–4, 5–6, and so on.

Learn with the app

Search by card number or English word. Tap a picture to hear Mandarin. Use Flip to turn the card over and Listen & find to play.

60 words from the supplied book photos + 24 extra words. Pictures use emoji and original symbols. Simplified Chinese, tone-marked pinyin and synthetic Mandarin audio.
